Career Objective

I am seeking a challenging role as a Web Developer in a dynamic organization, where I can leverage my skills in web development to build innovative and user-friendly websites. With a passion for creating clean and efficient code, I aim to contribute to the company's success while achieving my personal and professional goals.

Skills and Tools

- **Expertise:** ReactJS, Redux, JavaScript, TypeScript, Mongoose, Nodejs, MongoDB, HTML5, CSS3, TailwindCSS, Bootstrap, Express.js, Firebase, JWT, Axios.
- **Tools:** VS Code, npm, Chrome Dev, Netlify, Vercel, Github.

Experience

MERN Stack Developer | Weero Digital |

- Developed and maintained web applications using the MERN (MongoDB, Express, React, Node.js) stack.
- Collaborated with the development team to implement new features and enhancements to existing web applications.
- Assisted in debugging and resolving technical issues to ensure smooth application functionality.

- Participated in code reviews, providing constructive feedback to team members to improve code quality.
- Utilized version control tools, such as Git, for managing project codebase and collaboration.
- Gained hands-on experience in working with RESTful APIs to integrate front-end applications with back-end services.
- Actively contributed to team discussions and brainstorming sessions, sharing ideas for process improvements and innovative solutions.
- Demonstrated the ability to work effectively in an agile development environment, meeting project milestones and deadlines.

Projects

Weero-Dental | [Website link](#) | [Github(client)](#)
